The image shows a dark, textured background, possibly a book cover or a film poster. In the center, there is a tilted orange square with a white border. Inside the square, the words "UNITED ARTISTS" are written in white, uppercase, sans-serif font. The text is arranged in two lines: "UNITED" on the top line and "ARTISTS" on the bottom line. The square is tilted slightly to the right. In the bottom left corner of the dark background, there are two small, faint orange dots.

standard of excellence

In every field of human endeavor, there is only one standard of excellence — an effort that surpasses all previous efforts, a goal attained that reflects superior achievement.

This one standard; not two, nor three — is the ambition of Associated Screen Industries' highly skilled creative and technical minds. With instruments of almost unbelievable precision and modern scientific machines, our experts strive to detect and correct every flaw in your film, to delicately balance the vital tone and clarity of every image and every spoken word. Without this one desire incorporated into the planning of any film — it remains only half a film — incomplete.

Remember this: in striving for perfection in your film production; it does not end with the last "take". Perfection demands completeness!

Thus, when you specify Associated Screen Industries . . . you then desire a standard of excellence, a service complete.

Past

— 25 years spent building Canada's National Circuit has been merely preparation for the widening horizons of the future.

Now we look forward with confidence and anticipation to the challenges of the next 25 years; ready to encourage change and new ideas — not resist them.

We intend to be ever mindful of our hard-earned reputation for good theatre management and showmanship — while we strive to enhance it.

PRELIMINARY 1964 THEATRE STATISTICS

RECEIPTS from paid admissions in regular or auditorium theatres in Canada in 1964 totalled \$69,307,659, a gain of 8.6 per cent over the \$63,816,752 of 1963, it is estimated by the Dominion Bureau of Statistics in a preliminary report released just prior to press time. Admissions, which had been declining steadily from the peak 247,732,717 of 1952, reversed the 13-year trend by showing a gain of 3.2 per cent in 1964 over 1963 — from 87,966,686 to 90,779,962.

The DBS qualifies, however, that "The figures . . . are estimates based on reports submitted by 75 per cent of all regular and auditorium theatres operating in Canada during 1964. Although it is not expected that these figures will be much different in the full coverage report to be published at a later date, they should serve as indicators and not as an exact account of theatre operations in 1964."

All-time high in Canada for receipts for four-wall theatres came in 1953 when they reached \$100,889,361. But for

the next nine years they kept dropping. Then in 1963, the boxoffice take showed an almost \$3,000,000 increase over 1962's \$60,941,230.

Early reports from circuits and Independents in 1964 had forecast the turn-about and, the circuit's quarterly statements would indicate the upturn has continued into 1965. Receipts and paid admissions for drive-ins in Canada, which have been gaining steadily since their introduction in 1946, will also show gains in 1964, mostly because of new installations and also because several have become year-round operations.

The DBS preliminary report also estimates that amusement taxes collected by the regular theatres in 1964 increased by 4.2 per cent over 1963, going from \$4,370,712 to \$4,556,426. The receipts indicate that the average admission price in 1964 was 76 cents, compared with 72 cents the year before. Salaries and wages paid by theatres in 1964 are estimated at \$16,347,321, up 5.6 per cent from the \$15,473,829 of 1963.

Boxoffice Statistics

In 1963, says the Dominion Bureau of Statistics, Canadian movie exhibition rang up a cash figure of \$76,408,219, of which \$4,766,714 was for provincial amusement taxes. The non-tax total, \$71,641,505 compared with \$67,748,118 in 1962, is an increase of \$3,893,387.

In the table below none of the figures includes Itinerant Operators but those down to 1956 do include Community Enterprises and this must be borne in mind when comparisons are made. There were 506 of the latter in operation in 1956 and they accounted for about two per cent of the receipts. (See note at foot.)

The drive-ins' share of the total take was \$7,824,753, which does not include \$396,002 in amusement taxes. There were 241 drive-ins operating in 1963, one more than 1962's 240, and they took in \$1,017,865 more than in 1962. In the table below drive-in figures are included from 1946 on, that being the year the first one opened.

Therefore, the figures for Canada's "Regular" theatres (as defined by the DBS) and drive-ins for receipts, admissions and amusement taxes were:

\$76,408,219 97,888,272 and \$4,776,714

The following table includes the Yukon and Northwest Territories, which are serviced from British Columbia. Newfoundland is included for the first time in 1949, the year it became Canada's tenth province.

1963	1,486	71,641,105	97,888,272

*Denotes that the DBS for the first time in 1957 dropped Community Enterprises, which usually had about 2% of the receipts. Adding 2%, or \$1,644,228, to the 1957 receipts for purposes of comparison would give an approximate total of \$83,855,716. Similarly, in 1958 it would add \$1,627,860 to make the total \$83,020,938, in 1959 it would add \$1,510,278 to bring the total to \$77,024,252, in 1960 it would add \$1,455,886 to make the total \$73,740,220, in 1961 it would add \$1,377,642 to make the total \$70,259,814, in 1962 it would add \$1,354,962 to make the total \$69,103,080 and in 1963 it would add \$1,432,822 to bring the total to \$73,073,927.

RECEIPTS

REGULAR and auditorium motion picture theatres (non-drive-ins) in Canada grossed \$63,816,752 in 1963, an increase of \$2,875,522 (4.7%) from 1962, while admissions, at 87,966,686, were down 3,291,638 (3.6%) against 1962, according to the report of the Dominion Bureau of Statistics. Amusement taxes, at \$4,370,712, declined by only \$401. The average admission price was 72c compared to 67c.

It is heartening to note that the rate of decline of admissions is growing smaller.

Per capita expenditure on movie entertainment in Canada in 1963 amounted to \$4.04, up from 1962's \$3.91, which was the lowest since the mid-1930's when it hovered between the \$3 to \$4 mark. Peak year was 1953, when it reached \$8.30.

The statistics of the DBS apply to 1,245 standard theatres, 33 fewer than in the previous year.

Receipts from sources other than sales of tickets were valued at \$12,393,682 and included \$10,575,061 from sales of candy, drinks, cigarettes, etc. (\$10,246,673 in 1962), \$289,050 from the rental of concessions and vending machine space (\$259,037), \$38,776 from exhibiting commercial films (\$61,382) and \$1,490,795 from other sources (\$662,913).

DRIVE-INS

In 1963, 241 drive-ins (a gain of one over 1962) had receipts of \$7,824,753 from 9,921,586 paid admissions and returned \$396,002 in amusement taxes to the various governments. This compares with receipts of \$6,806,888 from 9,585,845 admissions with \$399,346 in taxes in 1962, for a gain of \$1,017,865 and 335,741 and a loss of \$3,344 respectively.

Addition of these figures to those of auditorium theatres show that national totals were, with the decrease or increase in comparison with 1962 in brackets: Number of theatres, 1,486 (-32); receipts, \$71,641,505 (+\$3,893,387); admissions, 97,888,272 (-2,955,897); amusement taxes \$4,766,714 (-\$3,745).

Receipts for regular theatres show a 4.7% gain, while drive-ins had a 15% gain, and the combined totals yield a 5.7% increase.

Total receipts from other sources than admissions amounted to \$3,773,332, compared with \$3,229,710 in 1962, of which \$3,555,270 was derived from the sale of candy, drinks, cigarettes, etc., \$42,965 from the rental of concessions and vending machine space, \$87,028 from exhibiting advertising films and \$88,069 from other unidentified sources.

Drive-ins employed 2,127 persons in 1963 and paid \$2,082,365 in salaries and wages, as against \$1,850,411 for 2,100 employees in 1962.

Film Rentals

FILM rentals from all sources in Canada increased by \$5,913,548 in 1963 compared with 1962, the total being \$39,629,698. In the 1963 summary the Dominion Bureau of Statistics, for the ninth time, gave the part of the total yielded by television, the return being \$15,382,950, which compares with \$12,460,027 in 1962, an increase of \$2,922,923. An additional statistic related to the whole revealed that \$724,652 was the amount from the renting of films

for other non-theatrical use.

Rental from 35 mm. theatrical films yielded \$23,522,096 of the overall total. In 1962 the rental amounted to \$20,701,061, making the 1963 figure a gain of \$2,821,035 in revenue. This represents an increase of 13.6 per cent, while at the same time, the DBS reports, box-office receipts increased by 4.7 per cent and theatre admissions dropped by 3.6 per cent.

During 1963 16 mm. films for the-

atrical use drew revenue of \$1,089,181, compared with \$873,248 the previous year, a sharp 24.7 per cent gain. This figure to which is added the revenue from 16 mm. films for TV and other use, brings the small-gauge rentals total to \$17,196,783, an overall increase of 22 per cent when compared with the 1962 figure, \$14,015,089.

During 1963 there were 60 film distribution companies operating out of 129 exchange offices, compared with 60 companies and 132 branches in 1962. The year 1955 saw the great spurt in distribution of films to TV and the opening of 16 new companies. The 60 firms employed 820 persons and paid out \$4,165,345 in salaries and wages during 1963.

The following table of annual rentals, in which each figure represents the combined 16 and 35 mm. yield from every source, shows the progressive increase up to 1954:

THE PIONEER OF THE YEAR AWARD

In 1952 the CPP marked The Golden Anniversary of the Silver Screen in Canada, dating it from the establishment of the first successful motion picture theatre—the Electric of John Schuberg on Cordova Street, Vancouver, which he opened in the Fall of 1902. At the celebration banquet, held in the Royal York Hotel, Toronto, Schuberg, Jule Allen of Toronto, George Ganetakis of Montreal, A. J. Mason of Springfield, NS, L. Ernest Oulmet of Montreal and Fred G. Spencer of Saint John, NB were honored as pre-1910 pioneers who had done the most to advance the motion picture as a popular form of entertainment in its early days. Spencer passed on shortly before the banquet and

Schuberg, Ganetakis and Allen have died since. The next year The Pioneer of the Year Award was inaugurated. Those who have received it to date are—1953: John J. Fitzgibbons, Sr., CBE; 1954: Jack Arthur, MBE; 1955: Louis Rosenfeld; 1956: O. R. Hanson; 1957: Wm. Summerville, Sr.; 1958: N. A. Taylor; 1959: Haskell M. Masters; 1960: Morris Stein; 1961: R. W. Bolstad; 1962: Wm. G. Lester; 1963: Frank H. Fisher; 1964: Harry and Bob Hurwitz; 1965: Herbert Allen.

It is operated for the Club by the Ontario Society for Crippled Children.

Overlooking Lake Ontario, it was built on land donated by the Provincial Government and the cornerstone was laid on December 21, 1948, by Col. George A. Drew, QC, LL.D., then leader of His Majesty's Opposition in the House of Commons and former Prime Minister of Ontario. It was officially opened on November 16, 1949, by the Hon. CUSTOMS, TARIFF, ETC.

16 MM. FILMS FROM USA

Exposed motion picture film is subject to a duty of 1½ cents per linear foot ad valorem, which is not to exceed 20 per cent of the invoice value, plus a sales tax of 11 per cent. The duty is to be computed on the prevailing rate of exchange on date of shipment. If the USA dollar is at a premium in Canada the invoice value is increased to compensate for the difference in exchange. If, however, the USA dollar is at a discount in Canada the invoice value is reduced. Here is how the tariff is worked out on a 5,000-foot film, invoiced at \$400, when the Canadian dollar is at a discount of 8 per cent:

Invoice value	\$400.00
Plus prevailing rate of exchange (8%)	32.00
	<hr/> 432.00
Duty on 5,000 feet at 1½¢ a foot	75.00

(As the Duty does not exceed 20% of the invoice value, in this case \$86.40, the \$75 is taken in full.)
 Amount subject to sales Tax 507.00

Sales tax 11%	55.77
Amount payable (duty and sales tax)	130.77

16 MM. FILMS FROM GREAT BRITAIN

Exposed motion picture film is free of duty but subject to a sales tax of eleven per cent on the invoice value.

EDUCATIONAL OR RELIGIOUS FILMS

(Tariff Item 656 (1))

Photographic reproductions (films) when for the use and by order of any society or institution incorporated or established for religious, philosophical, educational, scientific or literary purposes, and not for sale or rental: Duty free and sales tax exempt under all tariffs on production of certificate in required form. Information available at all Custom Houses.

35 MM. FILMS FROM USA

Exposed motion picture film has a minimum value of eight cents per foot for duty purposes. (An appraisal valuation of eight cents a foot is set by the Government, but if the invoice value is higher than the greater figure is used.) The duty is one and one-half cents per foot and this is added to the appraisal value. A sales tax of 11 per cent is worked out against the total. The figures are the same for color or black-and-white. The appraisal value takes care of the fluctuation in exchange. Here is how the tariff is worked out:

1,000 feet at minimum value of 8¢ per foot	\$80.00
Duty of 1½¢ per foot	15.00

Amount dutiable	95.00
Sales tax 11%	10.45
Amount payable (duty and sales tax)	25.45

EDUCATIONAL OR RELIGIOUS FILMS

(Tariff Item 696A)

This item provides for moving picture films, sound or silent, separate sound film track, slides and slide films, positive or negative, and sound recordings for use therewith; sound recordings for use by educational, scientific or cultural institutions or societies; sound recordings other than for sale or rental; models, static and moving, video tape recordings; wall charts, maps and posters: All the foregoing when certified by the government or by recognized representative authority of the government of the country of production or by an appropriate representative of the United Nations Educational, Scientific and Cultural Organization as being of an international educational, scientific or cultural character duty and sales tax free under all tariffs. Regulations and information on certifying authorities may be obtained at any Custom House.

35 MM. FILMS FROM GREAT BRITAIN

Exposed motion picture film is subject to the same duty and sales tax as USA shipments.

OTHER ITEMS

Item 462d reads: "Cinematograph and motion picture cameras and camera blimps for use by professional motion picture producers having studios in Canada equipped for motion picture production" and "parts of the foregoing" are free of duty under the British Preferential and Most Favored Nation Tariffs and 15% under the General Tariff.

Item 915b "Cellulose nitrate cinematograph and moving picture films, negatives, n.o.p.," sets the rate under British Preferential and Most Favored Nation Tariffs at ten per cent, with no discount when duty is less than 15 per cent.

Item 658, which was free under British Preferential tariff and Most Favored Nation tariff and three cents per foot under General tariff, is listed at the same rates but has been altered to exclude filmed or video taped TV commercials. Added was Item 658A, which gives the duty on filmed or video taped TV commercials as 15% BPT, 20% MFNT 30% General Tariff; and 658B, which gives the duty on video tape, n.o.p. (not otherwise provided for under 658 and 658A).

as 15% BPT, 20% MFNT and 30% General Tariff. The amended Item 658 reads:

"Motion picture film, of 16 millimetre width and over, and video tape, not including filmed or video taped television commercials, when imported by recognized processors of motion picture film or video tape having duly equipped laboratories for processing motion picture film or video tape in Canada, for the sole purpose of having reproductions made therefrom, and if the original film or video tape is re-exported within six months from the date of importation, under such regulations as the Minister may prescribe."

Item 696 affords duty-free entry to a very broad range of articles and equipment imported into Canada for the use and by order of any society or institution incorporated or established solely for religious, philosophical, educational, scientific or literary purposes, or for the encouragement of the fine arts, or for the use and by order of any public hospital, college, academy, school or seminary of learning in Canada, and not for sale or rental. The articles referred to above include sound and silent films, separate sound film tracks, positive and negative slides and filmstrips. The relation of this tariff item to certain articles of equipment is noted further on.

Unexposed sensitized negative film of standard commercial width, viz., 35 mm. or over, is rated for duty under item 187b at 10 per cent ad valorem, Most Favored Nation tariff and free under British Preferential Tariff. Unexposed sensitized negative film of lesser width, e.g. 8 mm. or 16 mm., is classified for duty purposes under item 187 at 20 per cent ad valorem under the aforesaid Tariff and is admitted free under British Preferential Tariff.

Exposed 35 mm. films pay a duty of 1.5 Canadian cents per foot. This tariff also applies to British films. As mentioned above, films for the use and by order of institutions or societies qualified for the entry benefits are exempt from duty.

Film cameras, for use with films of 8 mm., 16

mm. or 35 mm. silent type, are considered to be admissible free of duty under the provision in Item 696 relating to "mechanical equipment of a class or kind not made in Canada," when for the use and by order of institutions or societies qualified for the entry benefits of this item and not for sale or rental.

Sound projectors for 16 mm. films are held to be articles of a class or kind not made in Canada and are therefore admissible under item 696, when for the use and by order of institutions qualified for the entry privileges of this item and not for sale or rental.

Sound projectors for 16 mm. films, designed for portable use and having incandescent lamp light source, have been ruled as made in Canada and are not entitled to entry under item 696.

Slide or filmstrip still-picture projectors, when valued at not less than \$25 each retail in Canada may be admitted free of duty under item 696, when for the use and by order of institutions qualified for the entry privileges of this item and not for sale or rental.

Articles entitled to entry under Tariff Item 696 are exempt from the consumption of sales tax; otherwise the import of eleven per cent levied on the duty-paid value is applicable.

INCOME-TAX INFORMATION

No changes were made in the Canada-United States Reciprocal Tax Convention during the past year, according to the Department of National Revenue. The effect of the Convention, as stated by the Legal Branch at the Taxation Division, is:

"Under the Treaty Agreement between the United States and Canada, a credit for income tax deducted at source by one country will be allowed on the return filed by a taxpayer of the other country. Canadians earning income in the United States may claim credits in their Canadian returns for income tax withheld at a United States source, and Americans earning income in Canada may claim credit in their American returns for income tax withheld at a Canadian source."

PROVINCIAL LEGISLATION

THE most comprehensive survey of the motion picture in action ever made and recorded is that which was issued by UNESCO in 1950, "Press/Film/Radio," which is one of the "Reports On the Facilities of Mass Communications" embracing the world. Pages 292 to 305 are devoted to Canada, a flattering amount of space indicative of its high standing in the film world.

One of the most interesting sections of Unesco's Canadian survey was called "Legislation," which contained information surprising in its nature and quantity. It is reprinted here with revisions to bring it up to date.

Apart from the National Film Act governing the operation of the National Film Board of Canada, which will be dealt with later on, no special film legislation has been issued by the Canadian Government, this being the domain of the Provincial governments. Each of these has enacted such

legislation, mainly dealing with licensing and censorship as follows:

British Columbia: Moving Pictures Act 1924 as amended by the Moving Pictures Act Amendment Act 1948 and the Regulations under It (Regulations respecting Moving Picture Films and Film Exchanges, lastly amended by Order in Council No. 272 of 16 February 1950). The censor board, which has an "Adult Entertainment" classification, recently introduced "Restricted," which bans all under 18 from films so designated.

Alberta: Amusements Act and the Regulations Under the Amusements Act of 1941 lastly amended by Order in Council No. 488 of 2 May 1949. A recent amendment lowered the age at which children may attend movie theatres after 8 p.m. without adult companionship from 16 to 14. The "Restricted" category was introduced in 1964.

Manitoba: Amusements Act 1924. The "Restricted" category was introduced in 1964.

New Brunswick: The Theatres Act 1927.

Nova Scotia: The Theatres, Cinematograph and Amusements Act 1923, and Regulations thereunder (lastly revised 7 July 1945). The "Restricted" category was introduced in 1964.

Ontario: The Theatres Act, 1953, a complete revision of the Theatres and Cinematographs Act,

first passed in 1911. Under the new act the minimum age under which children may attend movies unaccompanied is lowered from 16 to 14. The term "theatre" is redefined to apply only to those showing 35 mm. films. The exhibition of 16 mm. films in halls becomes the responsibility of local officials. The previous men-per-booth law is withdrawn. Films classified as "Adult Entertainment" must be advertised in the papers and identified outside the theatre. Under the category called "Restricted" certain films are allowed exhibition for patrons over 18, each engagement requiring approval.

Prince Edward Island: There is no Board of Censors. Pictures shown must be approved by the New Brunswick Board of Censors.

Quebec: Act respecting Exhibitions of Moving Pictures 1925 and the regulations under it (Regulations respecting the censorship of films, lastly revised by Order in Council No. 342 of 31 March 1949). Complete revision of the Act was under way in 1964 and the new one may be put before the Legislature for approval in the Spring of 1965. Censorship has already been liberalized from the severe strictures of the past to broad approval.

Saskatchewan: The Theatres and Cinematographs Act 1940 and the Regulations under the Theatres and Cinematographs Act, lastly amended by Order in Council No. 48 of 1948.

Finally, in the North West Territories which do not constitute a province, there is the Ordinance respecting Motion Pictures, lastly amended on 17 March 1948, dealing mainly with theatre licensing and safety conditions. As there are only four licensed cinemas in the North West Territories which obtain films through provincial distribution, and as such films have been censored by the provincial authorities, it has not been considered necessary to carry out further censorship.

In Newfoundland, there is an "Act regarding the Censorship of Moving Pictures," but no regulations have been laid down thereunder. At one time a Board of Censorship existed but it was dissolved some years ago.

All provincial acts contain regulations concerning the licensing of cinemas with a view to public safety and compliance with censorship rules. Generally the licensing includes permanent cinemas as well as mobile cinemas and drive-in theatres both for 35mm and 16mm. In the Province of Quebec, film performances in the open air, and consequently drive-in theatres, are prohibited.

Most of the provinces require by law that projectionists must pass an examination and obtain a certificate.

Film exchanges (distributing companies and their local agents) must also be licensed, generally to ensure the safe storage of films. In different provinces, such as the provinces of Alberta, Nova Scotia and Ontario, the law contains a clause according to which the authority in charge may prescribe the terms and conditions under which films may be sold, leased or exchanged.

In addition the Lieutenant-Governor in Council of the province of Ontario may require that a proportion of the films available for distribution to exhibitors and the films exhibited in each theatre be of British manufacture and origin, and he may fix such proportions on a monthly or yearly basis.

The Nova Scotia Theatres, Cinematographs and Amusement Act lays down that no cinema may be deprived of the number of films necessary for its operation and also that no cinema may contract for more films than are reasonably required.

A special rule of the British Columbia Moving Pictures Act provides for the establishment of a British Columbia Patriotic and Educational Picture Service under the Department of the Attorney-General. The task of this service is to produce and acquire films and slides of a patriotic, educational or entertaining nature (especially concerning the Province or the Dominion) and to furnish them without charge for public exhibition in the cinemas. The Director of the Service may issue directions to the cinemas as to the times and manner of the exhibition of the films and slides.

Finally different provincial acts deal with entertainment taxes and all of them contain censorship rules. The general pattern is that censorship is exercised in each province by a Censorship Board and appeals against the decisions of these Boards can be made to the provincial Appeals Boards. Furthermore, films are usually censored under two categories: Adult and Suitable for Family Entertainment (or General), but Ontario and BC have added a third classification: Restricted, under which only persons over 18 years may be admitted. The age under which children may not visit cinemas unless films especially approved for them are shown, varies from 14 to 16 years. However, in the Province of Quebec children under 16 were not admitted at all from 1927 until 1961, when legislation was introduced to change this.

(For censorship fees and exchange licences see Censorship section.)

ADVERTISING RULES

Regulations for the use of Academy Award symbols and references to the Oscar-winning plays and players for advertising and exploitation purposes are:

No film or achievement which has not won an Academy Award may be advertised or exploited in a manner which will mislead the public and imply by design, layout or wording of copy, that the film or achievement has won the Academy Award.

Honorary Awards which are conferred only by vote of the Academy Board of Governors must be clearly defined in all advertising as Honorary Awards and must specify the accomplishments for which the recognition was accorded. Since 1925 the Composers, Authors and Publishers Association of Canada Limited has served its composer, author and publisher members, the users of music in Canada and the Canadian public.

The protection of the property right inherent in musical compositions and lyrics in the performing right field can only be effectively accomplished through a central organization such as CAPAC.

The users of music benefit from CAPAC's administration inasmuch as without such an organization any user would have to clear thousands of musical works individually rather than through one central body and the expense of such individual clearance would far exceed the cost of a blanket license issued by CAPAC which authorizes the performance of any or all of some millions of works.

CAPAC distributes the fees it collects amongst composers, lyric writers and publishers whose works are performed in Canada without any deduction whatsoever other than the actual cost of overhead which is maintained at approximately 12%. In any given distribution payments are forwarded to Canadians as well as citizens of some thirty-two countries throughout the world and the Canadian members in turn receive payment from societies in these countries through CAPAC for performances of Canadian works abroad.

The Canadian public benefits as a result of CAPAC's existence inasmuch as the holders of the CAPAC license are able to present to music lovers throughout Canada selections from the world library of music without fear of infringing copyright.
